

# Hung Pham

Senior Frontend Developer

+84 772 47 48 42 | truonghungit@gmail.com | Ho Chi Minh City, Vietnam

## SUMMARY

Frontend developer with 10+ years of experience delivering scalable, performant, and accessible web applications. Ability to define architectural direction and build component-driven systems across multiple domains (EdTech, Fintech, ERP, etc.). Passionate about clean code, testing culture, and continuous team improvement. Known for effective cross-team collaboration, mentoring, and building a high-quality development process that aligns with business goals.

## TECHNICAL SKILLS

- ❖ Languages: JavaScript (ES6+), TypeScript, HTML, CSS, SCSS
- ❖ Frameworks | Libraries: Angular, NgRx, RxJS, React
- ❖ UI & Styling: Angular Material, PrimeNG, Bootstrap, Tailwind CSS
- ❖ Testing: Jasmine, Jest, Protractor, Cypress
- ❖ Cloud & DevOps: Firebase, GitHub Actions, Vercel
- ❖ Other: Git, Docker, VS Code, Figma

## WORK EXPERIENCE

Senior Frontend - Frontend Lead at Athena Pros

06/2023 - 10/2025

### Project IRIS

The IRIS is an Integrated Resources & Intelligence System developed for a Vietnam-based investment management company. By consolidating diverse data sources, it empowers advanced research analysis and enables data-driven, more effective portfolio management.

*Team size: 10*

#### *My role and responsibilities:*

- Implemented micro-frontend architecture using Module Federation to migrate legacy applications and develop new features, improving scalability, easing integration, and enabling independent team deployments.
- Developed and maintained an internal Angular library (authentication, form handling, reusable components) adopted by multiple teams, reducing duplicated code and accelerating development cycles.
- Collaborated with product managers, business analysts, designers, and cross-functional teams to maintain existing systems and deliver new features.
- Reviewed code, provided constructive feedback, and supported colleagues in resolving complex technical issues, resulting in improved code quality and faster project delivery.

*Technologies Utilized:*

- Angular 15+, PrimeNg, NgRx, RxJS, Angular CDK, Module Federation, ChartJS, Excel JS

## Senior Frontend - Frontend Lead at EZtek Software

01/2019 - 05/2023

### Project Career Pathway

09/2022 - 05/2023

Career Pathway is a platform that makes career exploration simple, engaging, and effective. Whether it's helping a high school student discover their dream job, a professional showcasing their expertise, or a business attracting top talent.

*Team size:* 8+

*My role and responsibilities:*

- Designed and set up the project architecture from scratch, ensuring scalability and maintainability
- Delivered new features efficiently while maintaining existing systems through close collaboration with the team
- Conducted technical reviews, mentored junior developers, and improved overall code quality
- Defined the technical roadmap and drove adherence to best practices across the team
- Troubleshoot and resolved complex technical challenges, reducing development bottlenecks

*Technologies Utilized:*

- Angular, Angular Material, Angular CDK, NgRx, RxJS, Tailwind CSS, Jest

## UI library for Online teaching platform

08/2021 - 08/2022

The online teaching platform is a comprehensive digital teaching and learning toolkit that has become an integral part of the practice of thousands of teachers worldwide. It assists with differentiation, student engagement, feedback, and assessment. Its rich data insights are perfect for tracking student progress.

In this project, we built the UI components for other projects in the system

*My role and responsibilities were as follows:*

- Migrated existing components from Vue.js to React
- Developed new UI components to support product features and enhance user experience

*Technologies Utilized:*

- ReactJS, VueJS, Rollup, Storybook, Tailwind CSS, Jest

## Job Marketplace Project

06/2020 - 07/2021

An online job marketplace connecting people who have jobs that need to be done with those looking for work in the UK market.

*My role and responsibilities were as follows:*

- Implemented UI features efficiently
- Performed debugging and optimized components for better performance

*Technologies Utilized:*

- ReactJS, React Router, Redux, Bootstrap

## ERP Project

11/2018 - 05/2020

An Enterprise Resource Planning system to centralize data and streamline operations across departments such as warehousing, purchasing, sales, and accounting.

*My role and responsibilities were as follows:*

- Built and maintained the project architecture, ensuring scalability and consistency across modules
- Implemented UI features and standardized the component library with Storybook, enabling alignment across multiple product teams
- Conducted code reviews, provided technical feedback, and mentored junior engineers, improving code quality and team efficiency
- Verified and tracked tasks for team members to ensure timely and high-quality delivery
- Performed unit and end-to-end testing using Jest and Cypress to maintain product reliability

*Technologies Utilized:*

- Angular, Angular Material, Angular CDK, NgRx, RxJS, Storybook, Jest, Cypress

## Frontend Developer at EZtek Software

05/2015 - 10/2018

### Rating system

A rating system, intelligent and dynamic micro surveys, available across all channels, ensures you're really listening to your customer at every meaningful moment, without ever delivering an annoying survey.

*Team size:* 10

*My role and responsibilities were as follows:*

- Maintain existing systems and deliver new features by streamlining workflows and reducing deployment times.
- Develop and execute comprehensive unit tests to ensure code reliability and functionality.

*Technologies Utilized:*

- ReactJS, Redux, Formik, Bootstrap

## EDUCATION

Engineer's degree, Software Engineering

2010 - 2015

SaiGon University - Ho Chi Minh City, Vietnam
